**RE: Modification of CRMC Assent A 2007-03-014 – Construct 160' of fencing and modify remediation activities per the approved plans. Located at 6 Thornton Street; Plat: 65B Lot: 645; Pawtucket, RI.**

Dear Sirs:

The Rhode Island Coastal Resources Management Council has reviewed your request for modification of assent no. A2007-03-014 and approves the modification with the following alterations to stipulations:

**Stipulations of Approval:**

- A. Except/unless as stipulated herein, all stipulations of the original assent for CRMC File No. 2007-03-014, originally dated March 14, 2007 shall remain in full force and effect.
- B. Add to original stipulation "B": The approved modification plan shall be that entitled "Former Tidewater Facility, Pawtucket, Rhode Island, CRMC Assent Modification" dated 5-1-2009 by GeoEnvironmental Inc.
- C. Modify original stipulation "H": The only work approved by this Assent is the work associated with the roadway remediation efforts *and installation of the fencing*. The work shown on the plan at the "South Washout Area" is specifically **not** authorized at this time.

Unless modified by this document all work authorized by this CRMC Assent Modification Approval must be completed within the 3 year approval period established in the original CRMC Assent (as noted by page 1, paragraph 2 of the original assent). In cases where the approved work

will not be completed within this time frame, an Assent Extension Request Form must be submitted 60 days prior to the expiration of the established time frame for work completion. **In addition, all stipulations of the original CRMC assent remain in full force and effect except as modified by the stipulations contained herein and/or by the plans approved by this assent modification approval.**

Sincerely,

Jeffrey M. Willis, Deputy Director  
Coastal Resources Management Council
