Re: Notice to Abutter
Supplemental Site Investigation Work Plan Addendum – Max Read Field
Former Tidewater Facility
Pawtucket, Rhode Island
RIDEM Case No. 95-022

Dear Abutter:

The purpose of this letter is to notify you that The Narragansett Electric Company d/b/a National Grid (National Grid) will be conducting additional environmental investigation activities associated with the former Tidewater Manufactured Gas Plant (MGP) and the former Pawtucket No. 1 Power Station Site located at the ends of Tidewater and Merry Streets in Pawtucket, Rhode Island. This notice is being provided to abutting property owners and tenants in accordance with requirements established in the Rhode Island Department of Environmental Management's (RIDEM) Rules and Regulation for the Investigation and Remediation of Hazardous Materials (Remediation Regulations). Should you be an owner of property that is leased, we request that you provide a copy of this letter to your tenants.

The purpose of the upcoming additional subsurface investigation is to further investigate certain data gaps identified following completion of recent Site investigation activities at the Site. Specifically, the proposed investigation is being completed to address the visual observations of fill materials proximate to the eastern boundary of the Max Read Field. The investigation will include advancement of up to 5 test boring locations using a direct-push Geoprobe® rig. The field activities are scheduled to commence on or about November 7, 2011, and will occur over an approximate 2 to 3 day period.

The proposed activities are further detailed in a *Supplemental Site Investigation Work Plan (SSIWP) Addendum* submitted to the Rhode Island Department of Environmental Management (RIDEM) in August 2011. There is a 14-day comment period, commencing with the date of delivery of this notice, during which the public may review RIDEM records pertaining to this property and submit written comments regarding the proposed investigation activities described herein. Copies of the submittal referenced above can be obtained on RIDEM's website (<http://www.dem.ri.gov/programs/benviron/waste/tide.htm>). These investigation activities will be conducted in accordance with RIDEM's Remediation Regulations and will be performed by GZA GeoEnvironmental, Inc. (GZA) on behalf of National Grid.

If you would like more information or have any questions, please contact Michele Leone of National Grid at 781-907-3651.

Very truly yours,

GZA GEOENVIRONMENTAL, INC.

Margaret S. Kilpatrick, P.E.
Senior Project Manager

James J. Clark, P.E.
Principal
