RE: Site Response Action Status Report – January 1st through January 31st, 2016
Former Tidewater Facility
Pawtucket, Rhode Island
RIDEM Case No. 95-022 / Site Remediation File No. SR-26-0934

The following summarizes response actions completed at the above-referenced site for the period January 1st, 2016 through January 31st, 2016, as well as planned activities.

SITE ACTIVITIES PERFORMED

- Performed Site visits to document security conditions and sheen observations, if present.
- Performed the quarterly NAPL monitoring and recovery round. This work was completed on January 21st, 2016.
- On January 25th, 2016, a Short Term Response Action Plan (STRAP) was submitted to RIDEM summarizing proposed activities related to a drainage repair and the restoration of the south washout area. The complete STRAP has been posted to National Grid's Tidewater website (www.tidewatersite.com).

FUTURE RESPONSE ACTION WORK/SCHEDULE

- After RIDEM has reviewed the STRAP, host a public meeting to present the proposed STRAP activities. We expect the proposed STRAP activities to be performed during the summer of 2016, pending necessary approvals.
- Continue quarterly NAPL monitoring and recovery. The next event is scheduled for April 2016.
- Continue Site visits to document security conditions and sheen observations.
