Corps of Engineers Permit No. NAE-2019-02150 was issued to Elizabeth Greene of the Narragansett Electric Company d/b/a National Grid. This work is located in the Seekonk River at 200 Taft Street in Pawtucket, Rhode Island and authorized the dredging of approximately 18,400 square-foot (sf) of contaminated sediments from the Seekonk River, the installation of a remedial cap and the installation of an approximately 550 linear-foot long sheet pile wall, all seaward of mean high water (MHW). Additional authorized work consists of the in-kind replacement of an approximately 12,900 sf rip rap revetment, the permanent discharge approximately 5,500 sf of clean fill between the existing seawall and the new sheet pile wall and the permanent discharge of approximately 3,950 sf of rip rap for sheet pile wall armoring, all of which will be discharged seaward of the high tide line (HTL).

The people (e.g., contractor) listed below will do the work, and they understand the permit's conditions and limitations.
